Express or Parcel Post will be paid on all orders of \$10 or over in the First and Second Zones, and on orders of \$25 and over in the Third Zones, if paid in full.

In this list I have aimed to quote prices on only the very best varieties for this Northwestern section, varieties that have proven worthy of commercial or ornamental planting. If you are puzzled as to just the proper variety to plant or where to plant, then if you will just write me a letter explaining, I will be pleased to offer you suggestions or assistance to the best of my ability.

All orders are packed carefully to assure safe arrival, and free of charge.

I guarantee all trees and plants to be true to name and shipped in first-class condition, but at no time will I be responsible for more than the purchase price.

Five per cent discount will be allowed if cash accompanies order in full, otherwise cash must be forwarded or satisfactory reference furnished before goods will be shipped. Eight per cent interest will be charged on all overdue accounts.

Place your order early for otherwise we may be sold out and the same variety you wish may not be obtainable. Orders are filled from stock in rotation as booked.

Please mention in your order about the time you wish your order shipped, and I will try and ship as prompt as possible if weather conditions permit.

Motto: "Pleased Customers Are the Best Advertisement."

The great Dahlia Specialists of Europe and America have set a high standard, established by their years of comparative trials and you will have greater satisfaction and better values from their tested varieties which we offer, and which have been officially recognized, than you can possibly obtain from untried varieties of doubtful origin.

If cut when the first bud opens and put in water, the flowers will open perfectly, keep for many days, and colorings is richer and more delicate than if left to open on plant.
